At The West Bridgford School, we have set ourselves the following equality objectives:

- All groups of students should make significantly positive progress at GCSE

- Promote cultural understanding, awareness and respect of different religious beliefs between different ethnic groups within our school community.

- Ensure that high quality personal development provision is in place which enhances the curriculum and enriches pupils' wider understanding of equality, diversity and inclusion.

- Educate pupils on all forms of prejudiced language and behaviour such that incidences are reported and reduced in the school.

- Continue to improve accessibility across the school for pupils, staff and visitors with disabilities, including access to specialist teaching areas.

These should be read alongside the EMET Equality Scheme
