

IT (Information Technology) Cambridge Technicals: WBS Year 11 to Year 12 Summer Transition Work

Watch a YouTube Playlist on IT: There are 49 short (and really useful) video animations on **IT (Information Technology)** most of which will help you and are relevant to your Cambridge Technicals IT course in WBS 6th form. Any videos that seem too complex – just skip them. Watch as many as you can (most are around 5 - 10 minutes).

From Monday, 27 June 2022 (WBS 6th form taster day) until Thursday, 1 September 2022 (your return as a Year 12) there are 66 days. You could easily watch 1 per day (just 5-10 mins) and that still gives you 17 days without doing anything towards this at all. Try to spread out your "learning" over the 66 days to keep your brain switched on / engaged – which is the whole purpose of this. Cramming it in at the last minute is simply not worth it.

Here is a link to the playlist: <https://tinyurl.com/Yr11-to-Yr12-Summer-IT> and the screen shot below is what it looks like on YouTube.

Enjoy, and have a great summer.
