

Welcome to Year 7 History

In Year 7 History, students will cover a programme of study that introduces them to the Medieval world. After receiving a thorough grounding in historical skills, pupils will consider the importance of the year 1066 and study the development of society over subsequent centuries. This will include a look at castles and how they changed over time, the Black Death and the Crusades. By the end of the year, students will have moved on to the early Tudor period.

Assessment

Assessment in Year 7 History will take the form of six assessments testing various skills and aspects of subject knowledge over the course of the year.

Homework

Homework is set by your class teacher and you can expect to receive at least two pieces of homework for each topic.
