

Welcome to Year 10 Sociology

Sociology offers students a chance to ask thoughtful questions about the society they are part of and other societies around the world. Students will learn key terms and have the opportunity to apply what they have in 4 topic areas. Students will also benefit from learning about research methods, or applied sociology, as well as adding an element of academic rigor to their study by including theories such as post-modernism and feminism.

Assessment: You will be assessed periodically throughout the year and at the end of each topic to assess your understanding.
