

Geography @ WBS GCSE roadmap

Subject Aim: Year 10 and 11 follow the AQA exam spec. we have chosen case studies that work for our students building on their learning at KS3. The units have been divided up to create variety and interest and to aid revision as concepts are often revisited. There being no tiered papers assessment is broken down into level tasks to allow students to access appropriate tasks for their ability and their ambition. Fieldwork is carried out at 2 points in the course, once in year 10 and once in year 11.

Year 10 Topic 1	Assessment Formal Assessment will take place across the two years, with assessment at the end of each unit and formal Mock exams at 3 points across the course. Data will be fed back into the school reporting system at 4 Key reporting points. Key Assessments will be a mixture of styles varying from open book assessment to formal mock exams supported for each student. Key Assessment will take place at the end of each unit of work using past exam questions. 
Rivers and River fieldtrip in September	
Year 10 Topic 2	
Development	
Year 10 Topic 3	
Nigeria	
Year 10 Topic 4:	
Coasts	
Year 10 Topic 5:	
Climate change	
Year 10 Topic 6:	Homework and Revision Homework is set in accordance with the school Policy. As such students will be set two pieces of homework in each topic and be given up to two weeks to complete it. Homework will vary from unit to unit but there will be a selection of exam questions; enrichment reading; research and revision. Revision for Key Assessments will be carried out in lessons as well as being set for homework. Share point will have plenty of resources on it to aid students' revision.
Atmospheric Hazards	
Year 11 Topic 7	
Rio	
Year 11 Topic 8	
Ecosystems	
Year 11 Topic 9	
Bristol	
Year 11 Topic 10	
Tectonic hazards	
Year 11 Topic 11	Enrichment themes Throughout year 10 and 11 students will be enriched in a variety of ways, UK values: Throughout the course we develop their awareness of the physical, human, environmental and social aspects of the country and how they relate. Citizenship: we begin to develop their empathy for different cultures and ways of life. SMSC: We allow for debate and discussion throughout the course allowing students to share their experiences.
