

# Choosing A Levels... *in 15mins*

# Step 1 – What do you love?

$\sqrt{-1}$    
Math

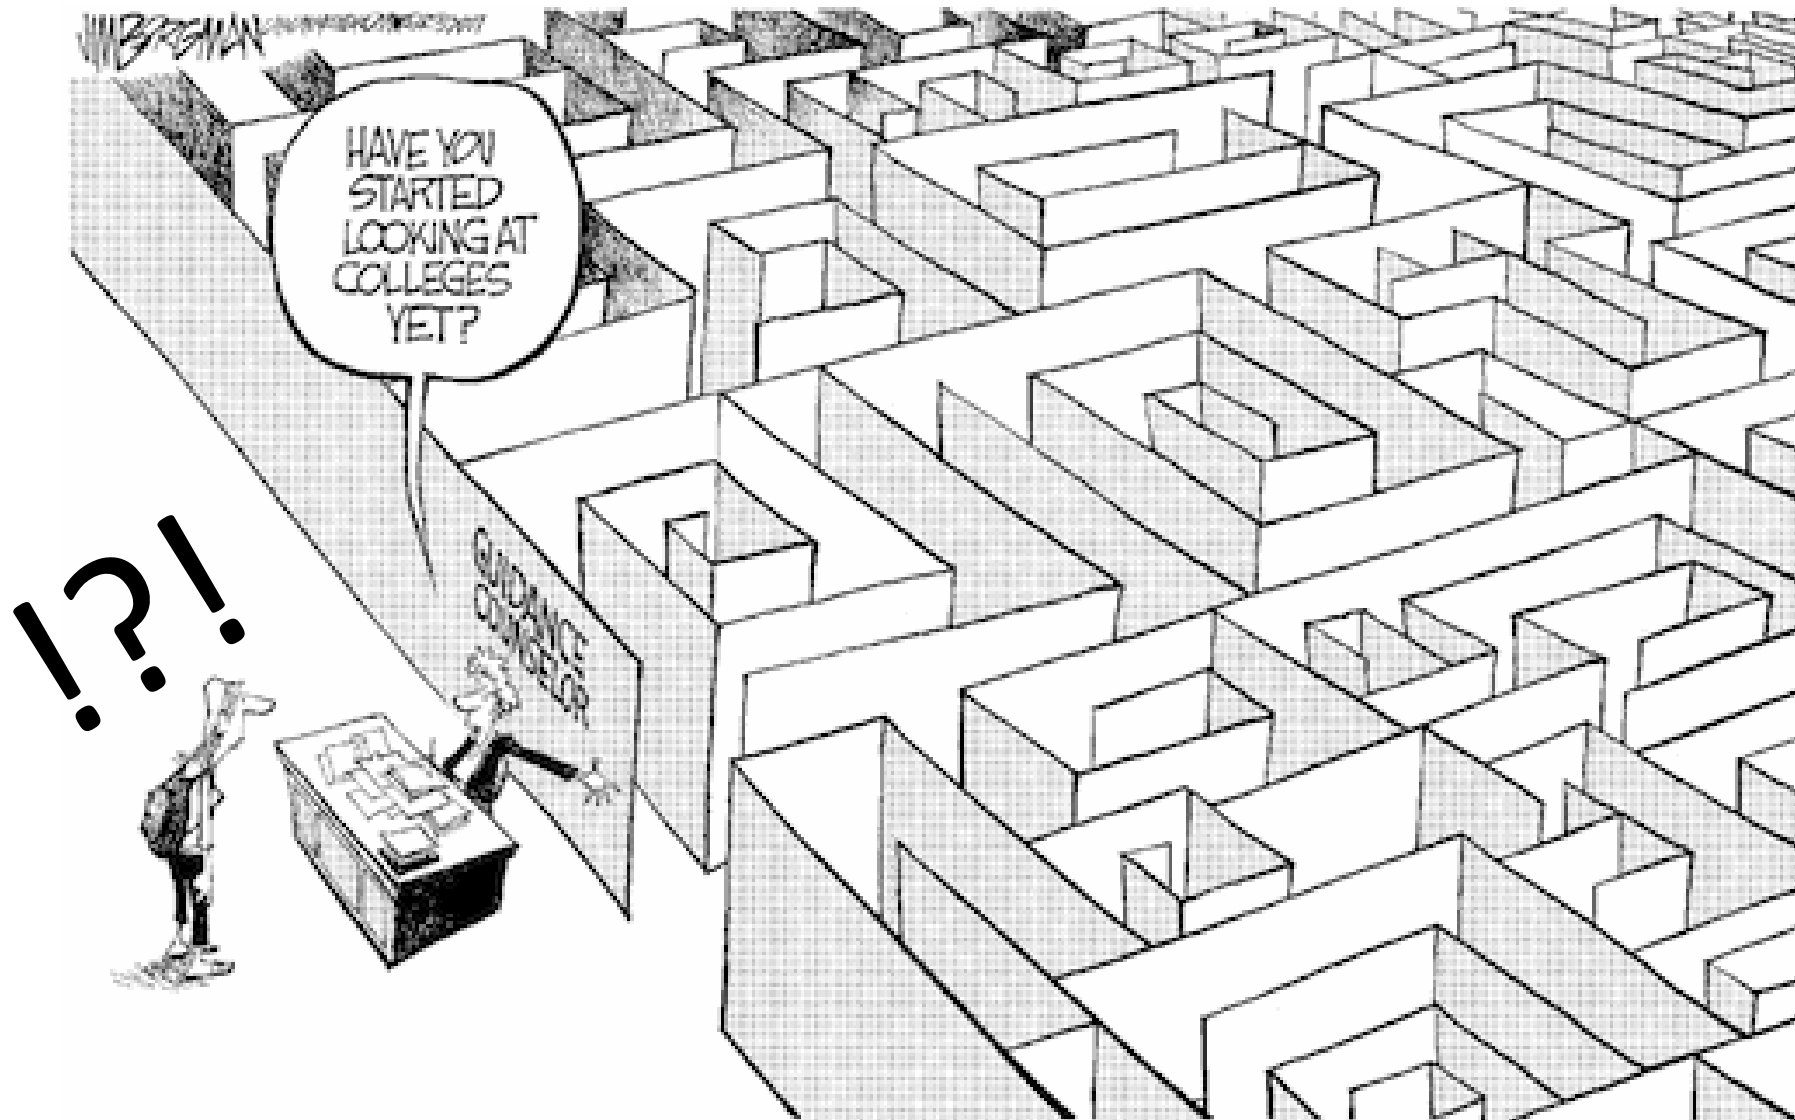

....and as importantly...what am I good at?

“If you’re not getting that flutter of excitement when you read the course details and the module options, then you could be in for two years of hard labour.”-

Mary Curnock Cook –UCAS Director

## Step 2 – Check specific course requirements..

## DENTISTRY

Advanced Apprenticeship

Here we provide a list of all the current advanced apprenticeship opportunities from the over 1,000 UK providers working with Not Going to Uni. The Advanced level is the equivalent to 2 A level passes and involves apprentices working towards work-based learning qualifications such as Level 3 NVQs, Functional Skills, or Key Skills, and a knowledge-based qualification (such as BTEC Diplomas, Awards and Nationals) relevant to the sector worked in.

# Step 3 - Avoid the Sweetie Jar – look for the hooks

The West Bridgford '4 A Level' Unique Selling Point.

# Chemistry

## Biological/Life Sciences

**Typical A-levels include: Chemistry, Biology**

**Possible degree options include: Biological/Life Sciences**

Students who take Chemistry and Biology have access to a huge range of degrees, including those leading to a definite career path (for example, Medicine, Dentistry, Veterinary Science, Pharmacy, Dietetics) and those based on research (for example, Biochemistry, Biomedical Materials Science, Pharmacology).

## Humanities and social sciences

**Typical A-levels include: mainly arts/humanities and social sciences**

**Possible degree options include: a wide range of arts/humanities, social sciences and business degrees**

Let's imagine that you do History, English Literature, Politics and Sociology at advanced level. Your degree at university might well follow on from one of these subjects – you could do a degree in History, Politics, English Literature or Sociology.

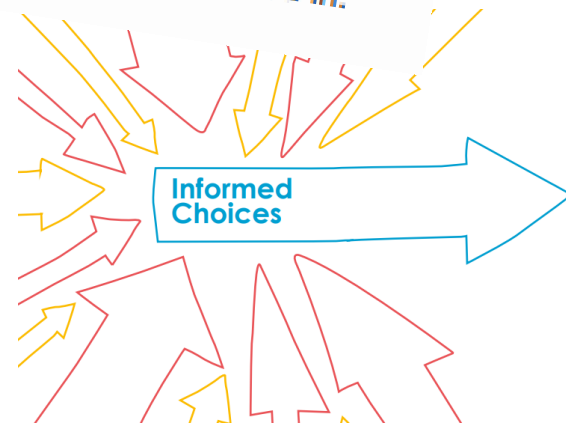

## The artist

**Typical A-levels include: creative subjects e.g. music, art or drama**

**Possible degree options include: degrees relating to those A-level subjects**

If you have talent in music you may well want to study it at university. If so, it is important that you take Music to advanced level (along with performance grades).

Music Technology A-level may not be considered suitable for Music degrees, so it's important to check whether this will meet the requirements of the courses and institutions you are interested in.

# Step 4 – Make your choices ... now what?

- Apply for a Post-16 provider.
- WBS Post 16? – complete preliminary work.
- Get the grades!
- Confirm your place.
